DETAILED ACTION

Reissue Applications

1. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

2. Claims 2-4, 6-8, 10, 14, 19-20, 24-29, 52-55, 58-59, 61-64 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the Declaration is set forth in the discussion above in this Office action.

Specification

3. The first sentence of the specification should be amended to recite --This application is a reissue of US Patent No. 6,104,761-- .

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 52 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

claim 52 is rejected as being incomplete for being dependent from a cancel claim. shouldn't such dependency should be changed to "6"?

Response to Amendment

6. The amendment to the claims filed on 11/19/03 does not comply with the requirements set forth in MPEP 1411.01 first full paragraph which states:

The applicant should include any changes, additions, or deletions that were made by a Certificate of Correction to the original patent grant in the reissue application without underlining or bracketing. >This includes changes made by a Certification of Correction dated before the filing of the reissue application or dated during the pendency of the reissue application.< The examiner should make certain that all Certificate of Correction changes in the patent have been properly incorporated into the reissue application.

Accordingly, applicant should resubmit the amendment (11/19/03) to the specification including the claims without underlining.

Similar comment applies to claim 26 with respect to the word "coincidentally", amended in the office reply filed on 7/1/08.

7. Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b). In addition, when any substantive amendment is filed in the reissue application, which amendment otherwise places the reissue application in condition for allowance, a supplemental oath/declaration will be required. See MPEP § 1414.01.

8. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 6,542,564 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.
